

# Fantasy Football 2015 Rules

---

1. **This is an 8 person league.** The winner gets **\$200** and a trophy, also they pick the loser's name for the first 3 weeks next year, second place gets **\$30**, third gets **\$10**, and last place (winner of the Sacko) is given extra punishments.
2. The cost to join is \$30 dollars.
3. Each team is allowed 1 keeper; the keeper takes up the draft spot that they were drafted the previous year. If this player is chosen as the keeper for 2 straight years he takes up half the draft spot of the previous year.
  - a. Ex. Used the 8<sup>th</sup> pick the first year, next year they take up the 4<sup>th</sup> pick.
4. The draft order is determined by a madden tournament, first place gets first pick, second place gets second pick etc.
5. The order of the first two round of the draft will stay the same, not until the 3<sup>rd</sup> round the draft order reverses and every round after will alternate.
6. One week during the season is rivalry week, in which everybody plays their biggest rival. Your rival is able to set your roster and you are able to set their roster (all starting positions must be filled). Also if your roster is not set exactly as they tell you, an automatic loss is given.
7. In the playoffs, **and Sacko playoffs**, a 3 point bonus is given to the team with a higher seed, this is just like the playoffs home field advantage in real life. This does not apply in the Super Bowl.
